## Premium Potting Soil

Organic Mechanics

# \$9.99

16 qts

**Peat-Free!**  
Ideal for growing  
food in containers,  
transplanting,  
tropicals, and indoor  
plants.

- Moisture-retentive blend, chock-full of compost and worm castings
- Use for small containers, window boxes or for any plant that needs moist soil
- Cut your watering time in half! You'll water half as often as compared with peat-based mixes.
- Harvest twice as much! Research trials show tomatoes grew twice as large, with twice as many fruits when grown in Premium Blend, compared to the competition.
- For best results, add a balanced, organic fertilizer at planting time.
- Contains: compost, pine bark, coir, worm castings, and perlite
